

# RHIC Status Update

Time Meeting, V.  
Schoefer  
2/21/12

- 109 x109 bunch stores 1.6-1.8e11 per bunch  
intensity stores
- Still working out a few small issues
  - Automatic longitudinal phase corrections
  - Yellow injection efficiency and lifetime
- Have to optimize tradeoff between vertex and  
store lifetime with storage cavity settings

File Window Markers Analysis
